AYOTUNDE JEFFERS DOHERTY

github.com/thetundedoherty | jeffersdoherty@gmail.com | https://www.linkedin.com/in/thetundedoherty/

PROFESSIONAL SUMMARY

AI data trainer with 3+ years of hands-on experience improving large language and vision-language models through annotation review, reinforcement learning from human feedback (RLHF), model error diagnosis, evaluation tasks such as BrowseComp and SimpleQA, and quality assurance. Detail-oriented reviewer who checks work against guidelines and credible sources, finds where and why model outputs fail, and turns findings into better training and evaluation data.

EDUCATION

Obafemi Awolowo University, Ile-Ife, Nigeria: Bachelor of Science in Quantity Surveying.

EXPERIENCE

TrustScale (e2f, Inc.)
171 Main St #159, Los Altos, CA 94022, United States,
April 2024 - to date

AI Data Trainer, Vision-Language Models. Review image-preference and visual question answering (VQA) annotations and give corrective feedback to annotators so that accurate, high-quality data is used to train an AI model that answers vision questions.

- Support the scaling of vision-language model training data and apply quality checks to keep it accurate.
- Work on evaluation tasks such as BrowseComp and SimpleQA: research hard-to-find facts, verify answers against credible sources with documented URLs, test tasks against AI models, and analyze failures in search path, reasoning, and source selection.

RWS Moravia IT
Brno, Czech Republic, May 2023 - April 2024

- Trained a large AI model on diverse perspectives, human values, and worldviews to reduce bias and support a more inclusive user experience.
- Used reinforcement learning from human feedback to train a computer vision model that classifies images, patterns, and movable objects, supporting construction safety and reducing operational hazards.

Invisible Technologies, Inc.
San Francisco, California, Dec 2022 - April 2023

- Collaborated with cross-functional teams to identify issues in a large language model and created customized fine-tuning techniques to fix them.
- Trained a large language model using deep learning techniques to generate diverse behavioral patterns, enabling custom chatbot development for various business applications.
- Developed custom scripts and used advanced fine-tuning techniques to optimize model performance, achieving a 15% increase in accuracy and a 9% decrease in perplexity.

Freelance Data Analyst
Upwork/Utiva, Nov 2021 - Nov 2022

- Investigated more than 100,000 medical appointment records from Brazil that show whether a patient attends an appointment (ScheduleDay, Neighborhood, gender, age, AppointmentDay, and ailment: hypertension, diabetes, alcoholism, and handicaps) to identify factors linked to missed appointments.
- Used Microsoft Excel pivot tables and lookup functions (INDEX-MATCH, VLOOKUP) to analyze data of a megastore in Abuja, Nigeria, and provide insight.

Sunshine Parks
Akure, Ondo state, Jan 2015 - Oct 2021

- Ensured the building met regulatory standards.
- Designed a system that ensures regular inspection, repair, and maintenance of buildings.
- Collected relevant building information and data to be analyzed for repair delays, energy usage, maintenance, and health and safety.

NYSC, Kores Books Ltd
Awka, Anambra state, Oct 2013 - Nov 2014

- Sales representative.
- Customer care.
- Feedback and reporting.

Concept & Real Consult/Industrial attachment
Onike Yaba, Lagos state, August 2011 - March 2012

- Site visit and project supervision.
- Procurement and delivery of construction materials on site.
- Daily work schedule and monitoring.

VOLUNTEER EXPERIENCE

Andela Learning Community, Feb 2017 - Oct 2018

- Review students' final projects and provide feedback.
- Organizing and facilitating meet-ups.
- Technical report presentation and feedback.

VERSION CONTROL

- Git

SKILLS

Model evaluation and failure analysis, research and source verification, RLHF and fine-tuning, bias reduction, computer vision, Machine Learning, Statistical Data Analysis with Python and SQL, Data visualization with Microsoft Power BI, and Data analysis with Microsoft Excel.

ACTIVITIES AND CERTIFICATION

- Udacity Data Analyst Nanodegree.
- Andela Volunteer Learning Community Meetup Facilitator Certification.
- Boost your business training (Facebook and She Leads Africa).

TOOLS

- Python and SQL.
- Jupyter Notebook.
- Microsoft Office Suite.
- Microsoft Power BI
- PgAdmin
- Google Suite
- Slack
- Notion
- Loom
